News from Our President

June is fast approaching and our Bus'N USA rally is only weeks away! We are working hard on getting the finishing touches on a great program for this years rally. I'm especially proud of the women who have stepped forward to create an interesting and informative women's seminar schedule. For years, the women have always said "there is nothing for us to do while you guys talk buses".

This year they have a building for their own seminars, crafts and games. We have a very talented group of women who are willing to share their talents with others. Thank You Ladies!!

We have several seminars for the men. One of the seminars will be servicing your Webasto or AquaHot.

Last time I did the seminar, it generated a lot of calls afterwards for more information. This will be a hands on seminar where we will actually tune-up and learn how a Webasto diesel furnace works and how you can keep it running in tip top shape.

We have Mike Wilson with Willy's Custom Concepts Painting, a tire seminar is in the works again, and we are trying to get Prevost to come to do a seminar, an engine seminar, and several more that we are in the process of finalizing.

One of the issues with the seminars is that the presenter wants to know how many coaches will be attending. They then make a decision if it is a good use of their advertising dollar based upon how many people they can reach. When we wait till the last minute to sign up, it makes our numbers lower and harder for the presenter to justify the time and expense to do a seminar for us.

If you would like to do a seminar or know someone else who would like to do a seminar, Please give me a call. Andy Alkema will do his "How to drive a coach and be a good Co-Pilot seminar". I have had many who attended his seminar really appreciate that the co-pilot can now get the coach to a safe place if necessary. As we "have seen many more moons", this is becoming more important in our traveling lifestyle. And to have someone with the patience and knowledge to present this to our co-pilot is invaluable.

We have all the great food by Chef Joe and crew ready to go!!

One of the greatest opportunities of the rally is to meet all your friends and make new ones. We seem to really be able to visit all day long!! You can see what everyone has done with their coach, see first hand what you like and maybe what is not for you without having to do it yourself first.

SEND IN YOUR REGISTRATION AND ATTEND!! Bring a Friend !! Looking forward to seeing you there! *Dick*

Word from your VP:
